WORK EXPERIENCE

TIDEPOOLLABS | APR 2021 - CURRENT

- Developed and maintained React Native components, screens, and features for the mobile app using Test Driven Development practices.
- Collaborated with other developers to implement new features in a way that is consistent with existing codebase conventions.
- Participated in design discussions regarding application architecture, feature implementation, or any other relevant topic as required.
- Assisted in developing test plans for new functionality prior to release and assisted QA team during testing of releases when needed.

- Developed front-end user interface using React Native and JavaScript for iOS and Android mobile applications.
- Utilized React Native debugging tools such as Reactotron and Remote JS to identify and fix bugs.
- Successfully implemented features such as a camera module, push notifications, and a social media login.
